DETAILED ACTION

Response to Arguments

The amendment filed 9-23-04 overcomes the examiner's prior art rejection.

Claims 1-2, 4-10 and 12-16 allowed.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. The examiner noted objectionable material in the first office action and the applicant has chosen to amend per his recommendation. Hence it is the examiner's opinion that the claims are novel over the prior art of record.
2. As noted by the examiner, claims 1 and 9 were re-written to include claim language stating "...the user-plane entity notifies the control-plane entity by sending a notify command in accordance with the media gateway control protocol, and the notify command includes a parameter identifying the communication...". It is the examiner's opinion that these amended claims recite highly detailed designs which were not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
